

Call for Papers for the special issue on:  
***“Air pollution and climate change in Latin America and the Caribbean (LAC): Impacts, adaptation and mitigation actions”***

Manuscript Submission Deadline: 1 February 2020

The Editorial Board of *Atmósfera* is pleased to issue a call for papers for a special issue with the theme "***Air pollution and climate change in Latin America and the Caribbean (LAC): Impacts, adaptation and mitigation actions***". All high-quality scientific papers relevant to this theme are welcome. All accepted papers will be collected in a single volume as a special issue.

The specific areas related to the theme for manuscript submission are:

- Regional/urban impacts and implemented actions to mitigate climate change
- Regional/urban impacts and implemented mitigation actions to improve air quality
- Coordinated action to address air pollution and climate change impacts in different sectors, e.g., agriculture, urban transport, waste management, biomass, etc.
- Integration of climate change and air quality and the multiple benefits in a multi-disciplinary approach

The Special Issue will be co-edited by ***Guest Editors***: Dr. Luisa T. Molina (*MCE2*<sup>1</sup>), Dr. Luis Gerardo Ruiz Suarez (*INECC*<sup>2</sup>), Dr. Jose Abraham Ortíz (INECC<sup>2</sup>) and Dr. Oscar Peralta (CCA<sup>3</sup>).

*Atmósfera* focuses on theoretical, empirical and applied research in all areas of atmospheric sciences as well as interdisciplinary contributions with other physical and social sciences. *Atmósfera* is an open access journal and no publication fees are required, since it is supported by *Centro de Ciencias de la Atmósfera* of the *Universidad Nacional Autónoma de México* (UNAM). It is indexed in several databases and its JCR impact factor is 1.52 (2018).

The deadline for manuscript submission is **1 February 2020**, with a targeted publication date by 1 January 2021.

Manuscripts should be submitted online:

<https://www.revistascca.unam.mx/atm/index.php/atm/about/submissions#onlineSubmissions>.

Author Guidelines can be found at:
